

## Inputs

## Outputs

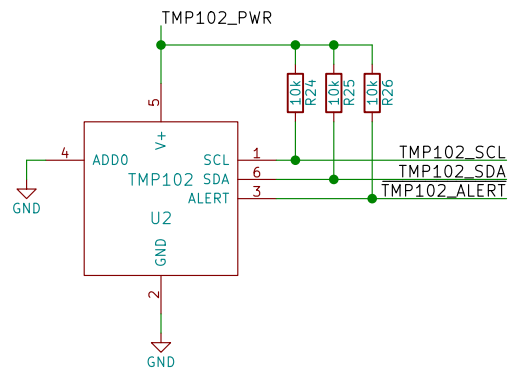

## 8V - 24 V to 5 V switched mode DC/DC regulator

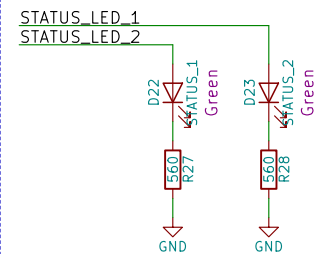

Design is based on "8.2 Typical Application" from the data sheet.  
The design supports 8-28 V inputs.  
EN has internal pull up.

## Temperature

Optionally powered by a GPIO pin to reduce self-heating.

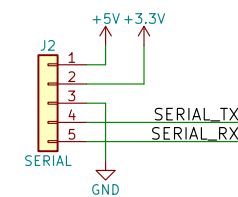

## Status LEDs

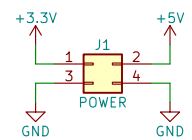

## Mounting holes

## Serial port #0

## Power
